WHAT MAKES IT UNIQUE?

1. It biodegrades in natural environment within 180 days.
2. It can be safely used in microwave and refrigerator, and can withstand temperatures ranging from -20C to 120C.
3. It is oil and water resistant.
4. Once it has been used, it rapidly biodegrades in soil and converts into plant food.
5. This has been internationally certified that it does not cause any damage to the soil or environment after biodegradation.
6. It's production process is pollution free.
7. It does not involve any chemical treatment and is totally healthy, non-toxic and harmless.
8. The sizes and shapes can be modified as per the customer's requirement.
9. It evolves from nature and goes back to nature.
10. It has a strong and sturdy structure, which redefines the essence of consumption.
